Notes

A jsec, lsec, dsec or csec is also a rsec.

A jent, lent, dent or cent is also a rent.

A jel, lel, del or cel is also a rel.

A jppt, lppt, dppt or cppt is also a rppt.

A rppt is also a rel.

A jppt is also a jel.

A lppt is also a lel.

A dppt is also a del.

A cppt is also a cel.

A rel is either a rsec or a rent.

A jel is either a jsec or a jent.

A lel is either a lsec or a lent.

A del is either a dsec or a dent.

A cel is either a csec or a cent.

A rppt is just the top-level (root) rel.

A leaf rel is always a rent.

A non-leaf rel is always a rsec.
